Control Cables

Your Best Choice
for Maximum
... performance,
... reliability,
... flexibility!

GLENDINNING - the best choice for you !

Marine & Specialty Cables

Glendinning Marine & Specialty cables are manufactured to withstand the marine environment while providing maximum performance.

We carry cables for universal applications as well as all models of popular engines (Mercury, Johnson-Evinrude, etc.).

Vernier, Utility & Throttle Cables

Cables for standard marine applications are not all that we manufacture! No matter what your application, Glendinning has a cable that fits your need. Vernier cables which allow fine adjustments to the cable. Utility cables for special operations. Throttle cables for the marine, automotive, and industrial markets.

**excellent
performance**

What makes Glendinning control cables out perform other cables? High efficiency, low backlash, and increased flexibility combine to yield excellent performance no matter what your application is.

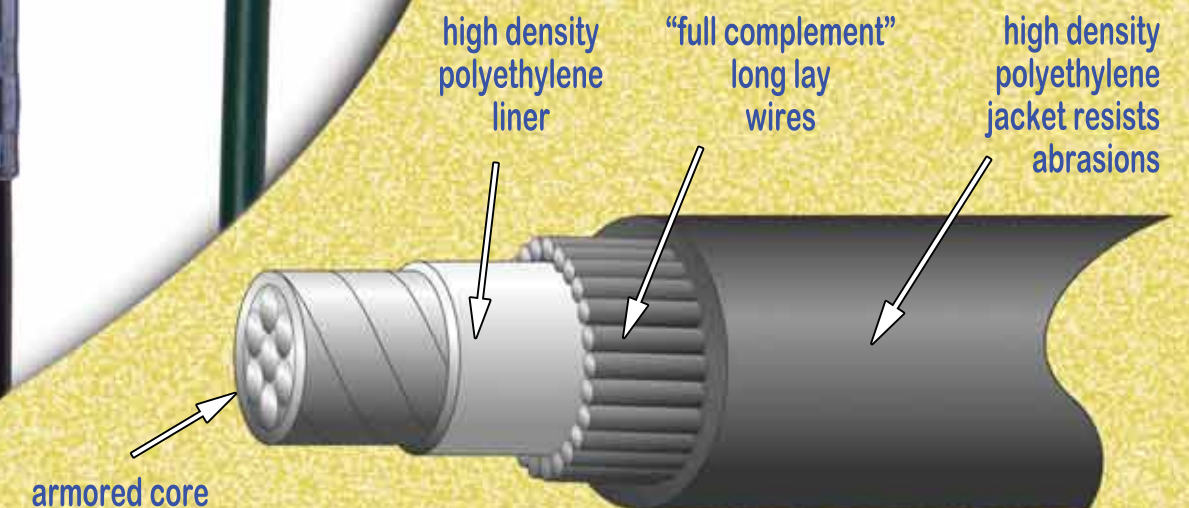

**broad
selection**

From standard marine control cables to utility cables, we offer a wide array of cables for a variety of applications. Many sizes available in inventory, ready to ship!

**unsurpassed quality
and reliability**

Each cable produced meets or exceeds the highest industry standards. For the past 47 years, NW Control Cables have a reputation for proven reliability.
